

Rittal opens three new modification centres

RITTAL opens three new modification centres at New Delhi, Chennai and Pune. It was inaugurated by Mr. Manuel Huesken, Director International Sales, Rittal GmbH & Co. KG, GERMANY along with Mr. A K Nathan, Managing Director Rittal India during December 2006. The Inauguration was well attended by more than 100 customers at each of these modification centres.

Delhi Modification Centre

Rittal has invested 2.5 crores for each of these modification centers. With this the total warehouse space available through three modification centre would be 60,000 sq. ft. Each of these modification centre also has an office space for the sales staff and a state of the art showroom with a display of latest innovations like the Top therm plus cooling, Compact Medium Enclosure, RiLine60 busbar system, Rimatrix5 Total solutions for datacenter etc.,

Rittal India Pvt. Ltd, a 100 % subsidiary of Rittal GmbH & Co. KG, Germany and one of the largest enclosure manufacturers in the world. Each of these modification centres has an area of 20,000 sq. feet for ex-stock storing of its product. Each of these modcentre is equipped with a Rittal Ripress wherein small modifications can be done within a shot span of time. The advantage customer would get is shorter lead times, ex-stock availability of wide range of products along with customisation facility like cutouts as per their requirements.

Chennai Modification Centre

The three new modification centers fit exactly into Rittal's strategy of mass production of wide range of standard products from its expanded factory at Bangalore and making them available to customers through its modification centre.
