

Rittal opens new modification centre at Ahmedabad

RITTAL opens new modification centre at Ahmedabad. This is the fifth modification centre Rittal has opened in India, other four are located at New Delhi, Hyderabad, Chennai and Pune. Rittal India Pvt. Ltd is a 100 % subsidiary of Rittal GmbH & Co. KG, Germany and one of the largest enclosure manufacturers in the world.

Ahmedabad Modification Centre

Rittal has invested over 3.0 crores for each of these modification centers. With this the total warehouse space available through five modification centre would be 1,00,000 sq. ft. Each of these modification centre also has an office space for the sales staff and a state of the art showroom with a display of latest innovations like the Ri4 Power, Top console, Top therm plus cooling, Compact Medium Enclosure, RiLine60 busbar system, Rimatrix5 Total solutions for datacenter etc.,

Steinhauer CNC machine

Each of these modification centres has an area of 20,000 sq. feet for ex-stock storing of its product. These modcentre are equipped with a Steinhauer CNC machine from Germany wherein small modifications such as cut outs can be done within a shot span of time. The advantage customer would get is shorter lead times, ex-stock availability of wide range of products along with customisation facility as per their requirements.

Chennai Modification Centre

The five new modification centers fit exactly into Rittal's strategy of mass production of wide range of standard products from its expanded factory at Bangalore and making them available to customers through its five modification centres located across Delhi, Chennai, Pune, Hyderabad and Ahmedabad.

Delhi Modification Centre
